

Enterprise

The full-service connectivity partner that makes rapid expansion possible

Amphenol Custom Cable ranked #1 on this supermarket giant's "Perfect Supplier Scorecard." For over twenty years, Amphenol Custom Cable has been a preferred supplier of the largest employee-owned grocery chain and one of the ten largest-volume supermarkets in the United States, serving over 1,220 locations.

Situation: Amphenol Custom Cable has supported the IT and network infrastructure cabling needs of one of the leading, fastest-growing supermarket chains in the country since the late 90s. For more than two decades, the customer-driven business philosophy of Amphenol Custom Cable has stayed constant and unwavering: Do what's in the best interest of the customer, always.

As the supermarket continues to grow at a record pace within the Southeast, so does its communications and IT demands. This supermarket innovator relies on Amphenol Custom Cable's expert network services division for the flow of voice and data among a myriad of networked devices and locations.

Delivering Network Services Solutions Onsite: As a full-service connectivity solutions partner, Amphenol Custom Cable delivers onsite project management, engineering, copper and fiber optic cable assemblies, and technical service. Projects include large-scale network infrastructure rollouts and cabling installations at the grocer's retail, manufacturing, distribution, and data center locations, including remodeled sites and new construction.

To further enhance customer service, Amphenol Custom Cable established its Charlotte office in 2014 to supply additional IT expertise in support of the supermarket chain's rapid expansion in the Southeast. Since then, Amphenol Custom Cable has provided consulting, design, engineering, product, technical and construction services to meet the grocer's evolving and growing network needs.

Amphenol Custom Cable's Network Services Division provides cabling solutions and installations at more than 1,200 locations in seven states at lightning speed.

"When we need to build or refresh Wi-Fi networks and equipment, Amphenol Custom Cable ramps up with teams where and when we need them to get the job done."
