

Flexible Node Connector

Flexible Exit Node Service Cable

Key Features

- IP68 rated to 10 feet water head
- Stainless steel connector
- Rotational anti-twist design connector
- SCTE 5/8 – 24 UNTEF thread

Options

- Fiber counts from 2 – 24 strands
- Connector options include SC/LC/FC/MPO – UPC and APC
- Available with 900um, 1.2mm, 1.6mm, 2.0mm colored legs
- Dielectric or armored cable
- BEAD and BABA compliance

Technical Specification

- Operating Temperature: -40C to 75C
- Optical Return Loss (RL): APC 65dB / UPC 55dB
- Maximum Insertion Loss (IL): APC .3dB / UPC .2dB
- Cable OD Armored: .4 IN / 10 MM
- Cable OD Dielectric: .315 IN / 8 MM
- Bend Profile to 90 Degrees: 4.25"

The Amphenol Flexible Node service connector provides a simple and effective means to install node service cables and easily bend the cable as needed in tight spaces. The design incorporates Amphenol's proven node connector fitted with a coregulated boot design that keeps the cable in place and is easily adjusted.
